

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

I am profoundly sensible of the honor which you, unsolicited on my part, have conferred upon me, in the selection of one from your number to preside over your deliberations.

The enacting of new laws conforming to the present constitution the apportionment of our national and state representation, and the adoption of general and local laws, demanded by the best interests of the commonwealth, impose upon the present legislature a labor truly herculean.

Considering the limited period of the session, a well-founded hope of the accomplishment of these ends, so necessary and desirable, can alone be found in concord, in counsel, great mental labor and untiring industry.

OFFICE OF THE ATTORNEY GENERAL, }
Lansing, February 10, 1851. }

To the Hon. the Speaker of the House of Representatives:

SIR—I have the honor to acknowledge the receipt of the following resolution:

“Resolved, That the Attorney General be requested to inform the House if, in his opinion, the constitution prohibits the authorizing the translation and printing of the Governor’s Message in any language other than the English.”

The only provision of the constitution that may be regarded as imposing a restriction upon the action of the Legislature, is contained in the sixth section of the eleventh article. It is therein provided, that the laws, public records, and other written judicial and legislative proceedings of the State, shall be conducted, promulgated and preserved in the English language.

I am clearly of the opinion that the publication of the Governor’s Message in another language, for the purposes indicated by the resolution, is not embraced within the provision of the section. It is not a law, nor a public record, nor a written legislative proceeding.

It is, therefore, competent for the House to order its translation and publication.

Very respectfully,

WILLIAM HALE,

Attorney General.

REPORTS.

The committee on the judiciary, to whom was referred the petition of C. Shanahan, the judge of probate of Cass county, praying for an amendment of section 5 of chapter 70 of title 17 of the revised statutes, have had the same under consideration, and report to the House a bill providing for the object of said petition, and ask to be discharged from the further consideration of the subject.

T. B. CHURCH, Ch'n.

The report was accepted, the committee discharged, the bill read a first and second time, and

On motion of Mr. Church,

Ordered laid on the table and printed.

Also the following:

The committee on the judiciary, to whom was referred the Senate bill to amend an act for the relief of Thomas N. Bartlett, have had the same under consideration, and have instructed me to report the same back with a substitute therefor, the adoption of which they recommend, and ask to be discharged from the further consideration thereof.

T. B. CHURCH, Ch'n.

The report was accepted, the committee discharged, the substitute read a first and second time, concurred in by the House, and ordered engrossed for a third reading.

And the following:

The committee on the judiciary having been requested by a resolution of this House, of date the 12th of February present, "to report to the House, at the earliest practicable period, if there is any law now in force to preserve the records, field notes and other papers pertaining to the office of county surveyors," report, according to said resolution, that they find no provisions by statute or other-

wise, other than those contained in sections 101 and 102 of chapter 14, of title 3, of the revised statutes of 1846, and which relate only to the "*successors in office*" of such county surveyors. The office of county surveyor was, previously to the adoption of the present constitution, a *constitutional* office, as will be seen by reference to section 4 of article 7 of the former constitution of this State.

But, if this office be hereafter maintained, it must be by virtue of a statute to that effect made and provided. It will hereafter be a statutory office. The provisions contained in chapter 14 of title 7, above referred to, would apply to, and could be made to secure the object contemplated by the resolution of the House. But if the office of county surveyor be abandoned, according perhaps to the design of those who intentionally omitted mention of it, in section 3 of article 10 of the revised constitution of this State, then special and immediate provision must be made by law for the object of the resolution aforesaid, to wit: the preservation of the "records, field notes and other papers pertaining to the office of county surveyor."

What provision should be made this committee will not assume to suggest; but recommend a reference of the matter to the committee on the organization of counties.

All which is respectfully submitted.

THOS. B. CHURCH, Ch'n.

It was ordered so referred.

The Speaker announced the following communication from the Superintendent of Public Instruction.

Moore, Chandler, Gray and Ferris, as a select committee under the resolution adopted by the House on the 15th inst., to inquire into the matter of the appropriation of 25,000 acres of land to construct a canal and locks around the rapids of Grand River, at Grand Rapids.

MOTIONS, RESOLUTIONS AND NOTICES.

Mr. Fitch offered the following preamble and resolutions:

Whereas, A convention of delegates from the several represen-

tative districts of this State, assembled in this Capitol on the first Monday of June, 1850, did, after a protracted and arduous session of two and one-half months, on the 15th day of August thereafter, form a new constitution for the State of Michigan, which was submitted to the people at the general election held on the first Tuesday of November, of said year, for their adoption or rejection;

And whereas, the people did (wisely or unwisely, the which it is no part of the legitimate business of this body to determine,) adopt and approve the same by an overwhelming majority of votes, thereby breathing into it the breath of life, and giving it vitality from and after the first day of January, A. D. 1851, whereby it became, in conjunction with the constitution of the United States, the laws of Congress passed in pursuance thereof, and existing treaties in conformity therewith, the supreme law of the State of Michigan, now obligatory not only on the members of this House, who are sworn to support it, but binding upon all the inhabitants of this State;

And whereas, by sundry provisions contained in that constitution, it is made the duty of this Legislature to district the State into Senatorial districts and to apportion anew the Representatives among the several counties of the State, and to adapt all the general statutes of the State to the provisions of the new constitution, as far as may be, with various other positive duties, a full schedule and detail of which it would be altogether inconvenient to hereunto attach and enumerate;

And whereas, the present session of this Legislature is virtually limited to sixty days by that provision of the constitution limiting the pay of its members to that time—a period sufficiently short for the proper performance of such manifold and arduous duties;

And whereas, one-fifth of the said sixty days has been already expended, mainly in the discussion and passage of local and private bills and incidental resolutions, not imperatively demanded by the constitution or people of the State; therefore be it

Resolved, That in the opinion of this House, the members thereof should carefully exclude from its proceedings all discussion on minor subjects and incidental questions, having for their tendency the hindrance and obstruction of the proper and legitimate duties of this Legislature; and further, be it

Resolved, That, in the opinion of this House, the members thereof should, in view of the probable sanction of this Legislature, of a general law giving to the boards of supervisors the control of the organization of townships, the laying out and altering highways, the building of bridges, the construction of dams and locks, with such other powers of a local legislative character as may be thought advisable, abstain from the further introduction into this body, of bills for local and private purposes, thereby enabling this House to attend with more promptness and continuity to the imperative duties for which it is here assembled.

Which were ordered laid on the table.

Mr. Hubbell offered the following resolution:

Resolved, That a committee of three be appointed, whose duty it shall be to draft a bill to regulate the sale of intoxicating liquors, and report the same to the House as soon as practicable. Lost.

Mr. Church moved that the several petitions now on the table, praying for an investigation into the matter of the appropriation of 25,000 acres of land made to construct a canal and locks around the rapids of Grand River, at Grand Rapids, and the communication from the Commissioner of the Land Office upon the same subject, received by this House Feb. 11th, also on the table, be taken therefrom, and referred to the select committee this day appointed to make such investigation; and that act No. 19 of session laws of 1847, act No. 125 of session laws of 1848, and acts No. 11 and 210 of session laws of 1849, and act No. 36 of session laws of 1850, be also referred to said committee.

Agreed to; and so referred.

Mr. Crosman offered the following resolution:

Resolved, That the use of this Hall be granted to Miss E. Bliss this evening, for the purpose of a concert.

Adopted.

Mr. Hitchings offered the following resolution:

Resolved, That the Attorney General be requested to attend upon such committees as have in charge the adaptation of the laws to the constitution, so far as it can be convenient for him, in order to facilitate the progress of such committees.

Lost.

Mr. Shearer moved to take from the table the following resolution offered by himself on the 15th inst.:

Resolved, That this House take up the laws of this State, and amend them so as to adapt, them to the constitution as near as may be; that the laws be read daily in committee of the whole, or otherwise, as may be deemed best to facilitate the work, referring the same to the Senate for their action.

Agreed to.

The question was then taken on the resolution, and the same adopted.

Mr. Church moved to take from the table a bill to provide for the collection of taxes in the county of Kent.

Agreed to.

The bill was then ordered to be read a third time, under a suspension of the rules; when

Mr. Church moved that it be referred to the committee of ways and means, with instructions to strike out the word "July" in section 11, line 3, and insert the word "June," and to report forthwith.

Agreed to, and the bill so referred.

After a short time,

Mr. Britain, from the committee of ways and means, submitted the following report:

The committee of ways and means, to whom was referred a bill to provide for the collection of taxes in the county of Kent, with instructions to amend the 11th section thereof by striking out "July" and inserting "June," have performed that duty, and instructed me to report the bill to the House, and ask the concurrence of the House in said amendment, and that the committee be discharged from the further consideration of said bill.

Have had the same under consideration, report the same back without amendment, recommend its passage, and ask to be discharged from its further consideration.

D. SHOOK, Ch'n.

The report was accepted, the committee discharged, the joint resolutions referred to the committee of the whole, and placed on the general order,

Mr. Britain submitted the following report:

The committee of ways and means, to whom was referred Senate amendment to House bill to provide for the payment of members and officers of the Legislature, have had the same under consideration, and instructed me to report the same to the House, and recommend the following action of the House thereon:—

1st. Concur in the 1st, 3d and 4th sections of said Senate amendment.

2d. Strike out section 2 of said Senate amendment, and insert :

"The compensation of the President and members of the Senate, and of the Speaker and other members of the House of Representatives, shall be three dollars per day for actual attendance, and when absent on account of sickness, for the first sixty days of the session, (and nothing thereafter;) and ten cents for every mile actually traveled in going to and returning from the place of meeting. Each member of the Senate and of the House of Representatives shall also be entitled to receive five dollars for newspapers and stationery.

"The compensation of the Secretary, Engrossing and Enrolling Clerks and Sergeant-at-arms of the Senate, and of the Clerk, Engrossing and Enrolling Clerks and Sergeant-at-arms of the House of Representatives, and of the Clerks employed, with the consent of either Senate or House of Representatives, by any of the standing or special committees of either of said Houses, shall be three dollars per day for actual attendance during the session.

"The compensation of the Fireman of the Senate and of the House of Representatives, shall be two dollars per day for actual attendance during the session.

"The compensation of the Messengers of the Senate and of the House of Representatives, shall be one dollar per day for actual attendance during the session."

In presenting to the House the above amendment for its adoption, your committee have endeavored to adhere strictly to the provisions of the revised constitution. The 15th section of the 4th article so explicitly defines the compensation of members of the Legislature, as to leave no room for a difference of opinion on that subject. Your committee, therefore, thought it advisable to state the *per diem*, mileage and stationery allowance definitely.

The 17th section of the 4th article of the revised constitution, provides that "the President of the Senate and the Speaker of the House of Representatives, shall be entitled to the same *per diem* compensation and mileage as members of the Legislature, and no more." This provision, in the opinion of the committee, fixes the compensation of the Speaker of the House of Representatives as clearly as the 15th section does that of members of the Legislature; and would also fix the compensation of the President of the Senate with equal clearness, were it not for its possible, though accidental, modification by the 20th section of the schedule, which provides that "the salary or compensation of all persons holding office under the present (old) constitution, shall continue to be the same as now (August 15th, 1850) provided by law, until superceded by their successors, elected or appointed under this constitution; and it shall not be lawful hereafter for the Legislature to increase or diminish the compensation of any officer during the term for which he is elected or appointed."

The Legislatures of 1847, '48, '49 and '50, each of them, provided by law for the payment of their respective officers and members. The laws enacted for that purpose, contain no provision repealing preceding laws, nor, in fact, do they contain any allusion to preceding laws; but seem to have been considered as merely providing for the payment of the officers and members of the Legislature passing them. Nor do they, in fact, contain any provision for the payment of the President of the Senate; but permit him to seek his compensation under the provisions of the 19th section of the 5th article of the constitution of 1835, which provides, "the Lieutenant Governor, except when acting as Governor, and the President of the Senate *pro tempore*, shall each receive the same compensation as shall be allowed to the Speaker of the House of Representatives."

It should here be borne in mind that the constitution of 1835 makes no provision for the extra compensation of the Speaker of the House; but permits him to receive such extra compensation as the respective Legislatures may allow; or as the same Legislatures might allow at their respective sessions, should they hold more than one; and provides that "the President of the Senate shall receive the same compensation as shall be allowed the Speaker of the House,"—evidently meaning, in the opinion of your committee, such compensation as shall, for the time being, be allowed by the respective Legislatures, or by any one Legislature at its respective sessions.

Your committee are of opinion that this 19th section of the constitution of 1835, was all the law in force, at the time of signing the revised constitution, which in any way provided for the compensation of the President of the Senate. That the 20th section of the schedule continues said 19th section of constitution of 1835 in force until the President of the Senate shall be superceded by a successor, elected under this constitution. That, as said 19th section provides that the Lieutenant Governor shall, except when acting as Governor, receive the same compensation as shall be allowed the Speaker of the House; that, as the 17th section of the 4th article of the revised constitution provides that the Speaker of the House of Representatives shall be entitled to the same *per diem* compensation and mileage as members of the Legislature, and no more; and, as the 15th section of the 4th article of the revised constitution provides that the compensation of members of the Legislature shall be three dollars per day for actual attendance, and ten cents for every mile actually travelled in going to and returning from the place of meeting, more than three dollars per day and ten cents per mile, could not be paid the President of the Senate, without a violation of the constitution; and that, therefore, it is the duty of the Legislature to state the compensation of the President of the Senate specifically in this bill, and thereby discourage any attempt, by a "refined" construction of the constitution, to obtain for that officer, however meritorious he may be, the extravagant compensation paid to the President of the Senate under the old constitution.

Your committee have recommended one dollar per day for the

Messengers of either House—not only from a conviction that the amount is an ample compensation for the service, but that any amount of faithful service can be obtained for that compensation—and that, therefore, the one dollar and fifty cents per day, provided in the Senate amendment, would be an unjustifiable expenditure of the public money.

CALVIN BRITAIN, Chairman.

The report was accepted, the committee discharged, and the report and bill laid on the table and ordered printed.

Mr. D. L. Case offered the following:

D. L. CASE, Ch'n.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole and placed on the general order.

Mr. Shook, from the committee on public lands, submitted the following joint resolution:

Resolved, by the Senate and House of Representatives of the State of Michigan, That the Surveyor General of the United States at Detroit, is hereby required to make a list of all the land that has been returned into his office as swamp and overflowed land, yet unsold in the State of Michigan, and transmit the same to the Commissioner of the State Land Office, at the earliest practical period.

Ordered laid over one day, under the rule.

Mr. Church, from the judiciary committee, submitted the following report:

The committee on the judiciary, to whom was referred the bill to extend the provisions of act No. 91 of session laws of 1843, to James Dunham and James Stoughton, have had the same under consideration, and instructed me to report the same back to the House, with the opinion that the same is insufficient for the object it has in view, and ask to be discharged from the further consideration thereof.

T. B. CHURCH, Ch'n.

The report was accepted, the committee discharged, and the bill ordered laid on the table.

And the following:

The committee on the judiciary, to whom was referred

A bill authorizing the transfer of a certain record from the county of Berrien to the county of Cass;

Have had the same under consideration, and instruct me to report the same back to the House, with a recommendation that it pass.

THOS. B. CHURCH, Ch'n.

The report was accepted, the committee discharged, and the bill referred to committee of the whole and placed on the general order.

Also the following:

The committee on the judiciary, to whom was referred the petition of Chauncey G. Pope and Thomas L. Pope, asking for the passage of a law authorizing the issue to them of a patent for certain lands in said petition described, have had the same under consideration, and have instructed me to report a bill providing for the object of said petition, of which they recommend the passage, and ask to be discharged from the further consideration of the subject.

THOS. B. CHURCH, Ch'n.

The report was accepted, the committee discharged, the bill read a first and second time, referred to the committee of the whole and placed on the general order.

Also the following:

The committee on the judiciary, to whom was referred the communication received by the House from the Auditor General relative to the interest account between the State and counties which return an excess of delinquent taxes over their State tax, with instructions to inquire into the legality of the course pursued by the late Auditor General in changing the rate of interest heretofore allowed to the aforesaid counties, have had the same under consideration and have instructed me to report thereupon:

That section 91 of chapter 20 of title 5 of the revised statutes provides that "the Auditor General shall state the accounts of the several county treasurers, on the first day of July in each year, allowing to the several counties ten per cent interest on such portion of taxes unpaid on the first day of February in the same year, as shall belong to them for township and county purposes," and that they can find no other provision of law altering or abrogating the instruction given to the Auditor General in the section above quoted.

And that they find in section 92 of chapter and title aforesaid, provision for the payment of interest at the rate of fifteen per cent to the State, either by the hands of the several county treasurers or of the Auditor General, upon all taxes returned as unpaid on the first day of February next after their assessment, together with all office

charges thereon; so that the taxes upon which the first section cited, directs the Auditor General to pay after the first day of July in each year, ten per cent interest, actually draw fifteen per cent interest to the office of the said Auditor General from the first day of February in such year, five months before his liability to pay the said ten per cent interest accrues.

And that the deduction of three per cent upon the rate of interest fixed by law to be paid to the counties which stand in the relation of creditors to the State, made by the late Auditor General in July, 1850, was unwarranted and illegal; and that the recomputation of the interest account between such counties and the State then ordered by the said Auditor General, and that the charging to said counties of the difference between the sum total of interest, due them upon a basis of ten per cent, and upon a basis of seven per cent, shown by the said recomputation, back to July 1st, in the year 1843, is also unwarranted and illegal.

And that they therefore report to the House a joint resolution providing for the adjustment of the said interest accounts between the said counties and the State, and its disposition hereafter according to the rule established in the section of the revised statutes first above quoted; of which joint resolution they recommend the passage and ask to be discharged from the further consideration of the subject.

THOS. B. CHURCH, Ch'n.

The report was accepted, the committee discharged, the joint resolution read a first and second time, referred to committee of the whole and placed on the general order.

And also the following:

The committee on the judiciary, to whom was referred the Senate bill providing for the issue of certain land warrants to one C. D. W. Gibson, with instructions so to amend the same as to make its provisions general in their application, have had the same under consideration, and have instructed me to report the same back, with the opinion that it would be inexpedient so to do, as the encouragement thereby held out to delay, on the part of those holding that class of certificates mentioned in the aforesaid bill, would tend to disarrange the business of the office of the Auditor General, and greatly retard the final settlement of the numerous accounts opened in the said of-

fee, under the various appropriations of land for the purpose of internal improvement, made by laws of this State. The bill under consideration originated in peculiar circumstances, and the committee recommend its passage and ask to be discharged from the further consideration thereof.

T. B. CHURCH, Ch'n.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole, and placed on the general order.

The Speaker announced the following communication from the Secretary of State:

OFFICE OF THE SECRETARY OF STATE, }
Lansing, February 24, 1851. }

HON. JEFFERSON G. THURBER,

Speaker of the House of Representatives:

SIR:—I have the honor to transmit herewith, an abstract of the reports of the Superintendents of the Poor for the several counties in the State of Michigan, for the year 1850, as received at this office.

Very respectfully yours,
C. H. TAYLOR,
Secretary of State.

On motion of Mr. Hyde,

Ordered laid on the table and printed.

And the following from the Attorney General:

OFFICE OF THE ATTORNEY GENERAL, }
Lansing, February 24, 1851. }

To the Hon. the House of Representatives:

I have received from the Clerk of the House of Representatives, a resolution, requesting the Attorney General to give a construction to the revised constitution, relative to the compensation of the officers and members of the present Legislature.

By the provisions contained in section fifteen of the fourth article of the constitution, the compensation of members is fixed at three dollars a day for actual attendance, for the first sixty days of the session of the year one thousand eight hundred and fifty-one, and for the first forty days of every subsequent session, and nothing thereafter. It is also provided in the same section, that they shall be entitled to ten cents and no more for every mile actually traveled, going

to and returning from the place of meeting, on the usually traveled route.

There can be no doubt, that the general law providing for the payment of the officers and members of Legislatures, approved January 16, 1850, is repugnant to these provisions, so far as it relates to the *per diem* allowance of members. The members of the present Legislature, it will be seen at a glance, are, in direct terms, embraced in the first clause of the constitutional provision. The subsequent clause, regulating the mileage of members, is no less unequivocally expressed. They shall be entitled to ten cents and no more for every mile actually traveled. This refers as pointedly to the Legislature of eighteen hundred and fifty-one, as the preceding clause. Both provisions, are, in fact, too plain to leave room for any other construction, than that the compensation of the members of this Legislature, is fixed by the constitution, at three dollars a day for attendance, and ten cents for every mile actually traveled, in going to and returning from, the place of meeting.

The seventeenth section of the article provides, that the President of the Senate, and the Speaker of the House of Representatives, shall be entitled to the same *per diem* compensation and mileage, as members of the Legislature, and no more. The only question arising in the construction of this provision, which I shall consider, is, whether the Speaker of the House of Representatives, is entitled to a *per diem* allowance as Speaker, independently of his pay as member. The language of the section is not so explicit as to relieve it from doubt; nevertheless I am inclined to the opinion, that it was intended to place the Speaker upon the same footing with the other members of the Legislature. The provision must have been adopted with reference to the custom that has heretofore prevailed in the election of Speakers. It has been the uniform practice of the popular branch of every Legislature, since the organization of the government, to select the Speaker from among the members. Such too has been the practice in other States. The contingency which might lead to a different practice, does not appear to have occurred to the Convention, for no reference is made to it. The provision should, therefore, be construed in view of the prevailing custom. A strict literal construction, then, would give to the Speaker twice the pay

of a member; that is, three dollars a day as Speaker, and three dollars a day as member of the House. Nor is this all. He would in like manner be entitled to ten cents mileage as Speaker, and a similar allowance as member. The provision making an allowance for mileage, cannot be regarded in the light of compensation for services. The real object of such appropriation is, to defray the traveling expenses actually and necessarily incurred by members. The Speaker however would be as clearly entitled to constructive mileage, as to the per diem allowance. Another inconsistency, equally, striking, would also be involved in a literal construction of the provision. It would create an inequality in the compensation of the Speaker of the House, and the President of the Senate. Should the provision be construed to give the Speaker three dollars a day, exclusive of his pay as member of the House, by the same construction, the President of the Senate would only receive three dollars per day, or the compensation of a member. An inequality like this in the compensation of officers whose duties are so nearly identical, could not have been intended. These inconsistencies, flowing from a literal construction, are too palpable to escape attention. Their consideration will tend to remove whatever there may be of doubtful import, in the language of the section. In view of them, I feel compelled to adopt a construction which will give to the Speaker the same compensation he would have been entitled to, had he not been elected to that office.

The compensation of the President of the Senate will depend upon the construction to be given to section twenty of the Schedule, which provides that the salary or compensation of all persons holding office under the former constitution, should continue to be the same as then provided by law. I forbear, however, to express an opinion as to the effect of this provision, for reasons which will readily occur to the House.

WILLIAM HALE,
Attorney General.

Ordered laid on the table and printed.

ATTORNEY GENERAL'S OFFICE, }
March 3, 1851. }

To the Honorable the House of Representatives:

I have received from the Clerk of the House of Representatives the following resolution:

"Resolved, That the Attorney General be requested to communicate to this House his opinion whether it is competent for the Legislature to amend acts of incorporation by extending the time within which, by said acts, the capital stock of such incorporations is required to be subscribed, or installments to be paid in; the said time not yet having expired."

The provision of the constitution to which the resolution refers, is as follows: "The Legislature shall pass no law altering or amending any act of incorporation heretofore granted, without the assent of two-thirds of the members elected to each House; nor shall any such act be renewed or extended." Under this provision the Legislature has full power to alter or amend acts of incorporations, but it is

prohibited from renewing or extending them. The mere extension of the time in which the capital stock is to be subscribed, or paid in, under the circumstances specified in the resolution, is not an extension or renewal of a charter. I regard it, therefore, as entirely competent for the Legislature to make such amendments to acts of incorporation as are contemplated by the resolution.

WILLIAM HALE,
Attorney General.

Mr. Turner moved a reconsideration of the vote by which the House refused to suspend the rules, in order to read a third time

The Speaker announced the following communication from the Attorney General, in reply to a resolution of the House:

OFFICE OF THE ATTORNEY GENERAL, }
Lansing, March 10, 1861. }

To the Hon. the House of Representatives:

I have received from the Clerk of the House the following resolution:

Resolved, That the Attorney General be requested to deliver his opinion, in writing, to this House, respecting the term of office of the highway commissioners, as fixed by the revised constitution of this State.

The first section of article eleven specifies the officers to be elected annually, on the first Monday of April, in each organized township. Among the officers named, is that of one commissioner of highways. It is undoubtedly intended by the provision, that there shall be but one commissioner, who shall perform solely the duties appertaining to the office. By the annual election, the office, of course, is limited to a term of one year. The provision was, doubtless, adopted without reference to existing laws. Had there been an intention to create more than one commissioner, the number would have been fixed, as well as the tenure of the office, and some direction would have been given for their classification.

WILLIAM HALE,
Attorney General.

The unanimous consent of the House was given to amend sec-

tions 2, by striking out in said sections, the words "and not exceeding one-half the amount of the capital stock," of the following entitled acts, the like consent having been given by the Senate:

An act to amend an act entitled an act to incorporate the Algonquin mining company, approved March 30, 1848;

An act to amend an act entitled an act to incorporate the Sisko-weit Mining Company of Michigan, approved March 12, 1849; and

An act to amend an act entitled an act to incorporate the Bohemian mining company, approved March 27, 1848.

Unanimous consent was also given, to strike out the words "appropriation act No. 103," and insert "an act appropriating certain internal improvement lands for the improvement of a State road in the counties of Livingston and Genesee," in section 1 of "an act to authorize the Auditor General to issue certain land warrants."

And also, the highest acknowledgments to the Hon. Charles H. Taylor, Secretary of State, for the lucid and able manner in which he also addressed the House on the same occasion.

Read a first and second time and referred to the judiciary committee.

Resolved, That the committee on education be instructed to inquire into the expediency of so amending the existing law relating to the State University, as to provide for the arrangement or selection of a course or courses of study in either or all of its departments, for such students as may not desire or choose to pursue the usual collegiate course embracing the ancient languages; and to provide for the admission of such persons without previous examination as to their attainments in the said languages; and for granting such certificates at the end of the term as may be appropriate to their respective attainments in the course or courses of study pursued.

And after some remarks thereon, by Mr. Darling, the resolution was adopted.

That your committee labored under some embarrassment for a time, not being able to understand definitely what portions of the Governor's Message were intended to have been referred to them, from the extraordinary exceptions contained in the reference; but your committee could not believe that it was the intention of the House to exclude from the committee on elections the consideration of a subject so inseparably connected with their other duties, as is the election of "Senators, State and Congressional Representatives;" therefore, your committee have taken under consideration the whole subject of general and special elections, and are fully of the opinion that a revision of our entire election laws is indispensably necessary to their adaption to the provisions of the revised constitution. Mr. Pierce, from the committee on ways and means, submitted the following report:

The committee on ways and means, to whom was referred the petition of Harry C. Andrews, Luman Fuller, William B. Hebbard, George F. Perry, Ira Hoag, William Simpson and eighty-nine other citizens of the township of Milford and vicinity, in the county of Oakland, "praying that the existing laws may be so changed that those persons, citizens of this State, who do not possess property of the value of two thousand dollars, may have the deficit made up to them from the State treasury," have had said petition under consideration and have examined the subject; and have taken into consideration the number of the petitioners, their residence being located in one of the oldest and most populous counties in the State, whose improvements in agriculture, manufactures, trade, education and wealth have been multiplying with unexampled prosperity for more than forty years.

And your committee have received information and verily believe that a considerable portion of the persons who have subscribed their names to this petition, are men of large fortunes, whose property and possessions under the common acceptation of the word, are more and greater than is necessary for the comfort and happiness of any family in this country, under our democratic system of government.

Your committee, in their great exertions to render to the petitioners all the assistance within their reach, have learned that some portion of the petitioners are not blessed with a full store of the goods of this world, or in other words they have not within their individual possession the amount of property which the revised constitution

and laws of this State allow every resident to have, hold possess and enjoy, undisturbed by the oppressive creditor.

Your committee, after scanning the subject as fully as the time allowed them on that subject would admit, have come to the conclusion that it would be improper for the Legislature, at this time, to comply with the prayer of the petitioners for the following reasons:

First. Because there are but few petitioners compared with the population of the State; and those petitioners are all residents of one town; and the inference is that the passage of a law in accordance with the prayer of the petitioners would not be sustained, and is not asked for by any considerable number of the people.

Secondly. That the right to take the property acquired and held by the individual citizens of this State, and without the consent of such citizens bestow said property upon other citizens, has not, in the opinion of your committee, been the expressed will of any considerable portion of the people.

But in order and for the purpose of carrying out the principle recommended in the prayer of the petitioners, your committee recommend to the petitioners of the township of Milford and vicinity, that they proceed to carry out the principle contemplated and asked for in their petition, by setting off from their estates so much personal and real property and transferring the same to their poor and destitute neighbors in the township of Milford as will put into the possession of every resident in said town, property to the amount and value of two thousand dollars, including his present property. And providing the operation should prove as admirably prosperous and essential to the perpetuity of our republican institutions as is represented in the petition, the example would soon be followed by the citizens of other sections of the State, and when fully tested and its benefits realized, become one of the laws of the State.

And with a view to assist the petitioners in carrying into operation their liberal and patriotic principles, your committee have reported the accompanying bill and recommend its passage, and ask to be discharged from the further consideration of the subject.

The report was accepted, the committee discharged and the bill ordered laid on the table and printed.

Mr. Lawrence, from the committee on engrossment and enroll-

ment, reported as correctly enrolled, signed, and this day presented to the Governor for his approval.

An act supplementary to acts incorporating the city of Detroit;

An act authorizing the Auditor General to publish certain tax sales in the Barry County Pioneer;

An act to provide for the issuing of a patent to Chauncy G. Pope and Thomas L. Pope, for certain lands; and

An act to change the boundary between the townships of Palmyra and Ogden, in the county of Lenawee.

Mr. D. L. Case, from the committee on banks and incorporations, to which was referred

A bill to amend an act to incorporate the Lansing coal company, approved March 28, 1849,

Reported the same back without amendment, recommended its passage, and asked to be discharged from its further consideration.

The report was accepted, the committee discharged, and said bill referred to the committee of the whole and placed on the general order.

Mr. Church, from the judiciary committee, to which was referred

A bill to provide for the organization and powers of the Supreme court,

Reported the same back without amendment, recommended its passage and asked to be discharged from its further consideration.

The report was accepted, the committee discharged, and the bill referred to committee of the whole and placed on the general order.

Mr. Church, from the same committee, to which was referred

A bill conferring additional powers upon judges of probate, and providing for the administration of the estates of deceased persons; and

A bill to amend sections 44, 46 and 47, chapter 12 of the revised statutes of 1846, relative to the board of State Auditors,

Reported the same back without amendment, recommended their passage and asked to be discharged from their further consideration.

MESSAGES.

The Speaker announced the following message from the Executive:

EXECUTIVE OFFICE,
Lansing, March 19, 1851. }

To the House of Representatives:

I have this day approved, signed, and deposited in the office of the Secretary of State,

An act to amend section 3 of an act to incorporate the National mining company;

An act to authorize the transfer of a certain record from Berrien county to Cass county.

JNO. S. BARRY.

Also the following communication from the Attorney General:

OFFICE OF THE ATTORNEY GENERAL, }
Lansing, March 19, 1851. }

To the Hon. the House of Representatives:

I have received a resolution adopted by the House of Representatives requesting my opinion as to the rate of interest to which counties are entitled after the first day of July in each year, who have returned a portion of their taxes for township and county purposes, as specified in section ninety-one, chapter twenty, title five of the revised statutes of eighteen hundred and forty-six.

By the section of the revised statutes referred to, the Auditor General is required to state the accounts of the several county treasurers on the first day of July in each year, allowing to the several counties ten per cent. on such portion of the taxes unpaid on the first day of February in the same year, as shall belong to them for township and county purposes. The statute is silent as to the rate of interest to be allowed after the first of July. The Auditor General is only required to allow interest at the rate of ten per cent. up to the time of the statement of the accounts; and he is restricted in the allowance, to such portion of the unpaid taxes, as belong to the counties, for the purposes above mentioned. The question must, therefore, be mainly determined by inquiring into the practical effect of the statement of accounts, which the Auditor General is required to transmit annually to the county clerks of the several counties. Upon a question analogous to this, which was referred to my predecessor during

the last session of the Legislature, the opinion was expressed, that the annual statement of the Auditor General was in the nature of a settlement, or liquidation of the accounts. After a careful examination, I see no reasons to dissent from that opinion. Such is the effect given to it in the practice of the office, and such is undoubtedly the intention of the statute. The statement of accounts exhibits an excess on the credit or debit side, with which the counties are credited, or charged on the books of the office. It thereafter becomes a liquidated debt, and the distinction between State, or county and township taxes, is merged in a general account. The excess exhibited by the statement, does not necessarily comprise the amount of taxes unpaid on the first day of February belonging to the county, for township and county purposes, subject to the rate of interest specified in the statute. The omission of the statute to fix the rate of interest after the first day of July, cannot therefore, be supplied by carrying the excess to the account of the following year, for the reason that it is not embraced in the description of taxes on which ten per cent. is to be allowed. Interest is only to be computed on such portions of the taxes unpaid on the first day of February as belong to the counties for township and county purposes. The provision cannot properly be said to embrace balances of the accounts of preceding years. Besides the statute is evidently intended to cover only the taxes for the year in which the statement is required to be made. The first of February, from which the interest is to be computed, can only be construed to refer to the February preceding the annual statement of accounts, as on that day interest becomes chargeable on all unpaid taxes.

The statute being silent as to the rate of interest after the first of July, I am of the opinion, therefore, that the Auditor General is not authorized to make any allowance beyond the legal rate of seven per cent.

WILLIAM HALE,
Attorney General.

Ordered laid on the table.

The committee on banks and incorporations, to whom was referred House bill entitled a bill relative to the Erie and Kalamazoo Rail Road Company, have had the same under consideration, and respectfully report the same back to the House, and recommend its passage.

D. L. CASE, Ch'n.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole, and placed on the general order.

Mr. Church, from the judiciary committee, reported back

A bill relative to conveyances of real estate;

A bill to amend section 10 of chapter 155 of title 30 of the revised statutes of 1846, relative to crimes and the punishment thereof, and

A bill supplemental to an act to authorize proceedings against garnishées, and for other purposes, approved March 28, 1849.

The report was accepted, the committee discharged, the first and second named bills read twice, referred to committee of the whole and placed on the general order.

Also, a bill ceding jurisdiction to the United States over a certain piece of land at the mouth of Muskegon River.

Read a first and second time, referred to the committee of the whole and placed on the general order.

Mr. Church submitted the following report:

The committee on the judiciary, to whom was referred sundry petitions praying for the repeal of chapter 36 of the revised statutes of 1846, concerning the practice of physic and surgery, and for the establishment of a professorship of homœopathy in the University of this State, have had the subject under consideration, and respectfully report, that in their opinion the law, as embodied in said chapter, bestows exclusive privileges upon the medical practitioners of a certain school, creates a monopoly of this branch of science, and is therefore a barrier to explorations in the wide field of the healing art.

The cause of science cannot suffer, but must be eminently promoted by free enquiry and investigation; and all laws, however specious their forms, with tendencies to favoritism, are not only, in our opinion, subversive of the great constitutional guarantee, that "no man or set of men are entitled to exclusive or separate privileges," but are repugnant to the genius and spirit of our institutions.

Your committee do not intend to pronounce upon the merits of the different schools of medicine, though their partialities are perhaps with the oldest and most popular system; yet they do not believe it to be the embodiment of all wisdom.

A large portion of our citizens, of the highest intelligence and respectability, favor and adopt the theory and practice of other schools, they are unquestionably conscientious in their views and feelings,

and they have a right to demand that no invidious distinction shall be created by the laws, but that all systems shall be placed on an equal footing—each standing or falling as by the decree of public opinion its comparative merits may determine.

Legal enactments, proscriptive in their character and bearing upon individual opinion, the product of an inherent right, are justly obnoxious to public condemnation, and become either hatefully oppressive in their effects, or greatly injurious to civil government, by reason of disobedience to them.

The committee, therefore, believe that all arbitrary restrictions on the practice of medicine should be abolished; that practitioners of the several schools should be privileged to form societies on the voluntary principle, as was the case at the time of the adoption of the revised statutes of 1846; and they therefore recommend the repeal of chapter 36 of the revised statutes aforesaid, and the passage of a bill herewith reported for that purpose.

They report herewith also a bill to legalize the study of anatomy; that science which is the foundation of all therapeutical knowledge; in which all schools of medicine have a common interest. No physician, whether alopathic, homœopathic, hydropathic, botanic or urinal, can prescribe successfully for human disease without an acquaintance with the human structure. This acquaintance can be acquired by practical demonstrations on the *post-mortem* subject; and humanity to the living requires that provision should be made for this most important end.

As regards the establishment of a homœopathic professorship in the medical department of the State University, the committee make no recommendation. The organization of that University, its mode of operation, studies to be pursued and the whole details of its management, will soon be within the examination and control of a Board of Regents "fresh from the people." They will undoubtedly, in the course of that thorough reconstruction to which this somewhat unsuccessful institution must be subjected in order that it may give any hope or probability of ever becoming efficient and useful, make such arrangements, in this particular branch of education, as will meet the demands of the age. Their object will be to draw medical students to the lecture rooms of the University. Then, they must there cause

to be taught whatever enlightened intellect and progressive improvement in "the healing art" manifest as the indubitable results of sound inquiry and safe experiment. The committee, therefore, are of opinion that the expediency of the establishment of a homoeopathic chair in the University will be determined by the Board of Regents more wisely than by your committee or by the legislature. But that the petitioners may have an opportunity more fully to present their views upon this matter, the committee recommend the reference of the petitions praying especially for this action, to the committee on education, whose duties lead them to a minute examination of the organization of the State University. They ask to be discharged from the further consideration of the whole subject.

T. B. CHURCH, Chairman.

The report was accepted, the committee discharged and the bill read twice, referred to the committee of the whole and placed on the general order.

Mr. Britain submitted the following report:

In line 3, section 1, after the word "from," strike out the words "the southern of the State," and insert the words "the line between this State and the State of Indiana."

In line 5 of section 1, after the word "railroad," where it first occurs in said line, strike out the words "to connect the Southern railroad with Chicago."

Amendments offered by Mr. Britain;

"Provided, That before the provisions in this section shall take effect and be applicable to any company or companies in the State of Indiana, or have any effect whatever in that State, the company or companies in that State having power to control a rail road from Michigan City to the State line of Illinois, shall contract to transport the freight and passengers of the Michigan Central Rail Road Company over and upon the road of said company, and any part of it, between Michigan City and Chicago, upon just and equitable terms, so as to insure every practicable dispatch, facility and accommodation, either in the cars of the said Michigan Central Rail Road Company, or otherwise, with a view of insuring to the said Michigan Central Rail Road Company a free and equal competition at and with Chicago for trade and travel, on the condition that the company or companies in Illinois connected with the Michigan Central Rail Road Company shall first contract or agree to contract that they will immediately proceed to construct a rail road from the Illinois State line to the city of Chicago, so as to cause no delay in the progress of the line to that city, and will in like manner as above provided transport the freight and passengers passing on the said road in Indiana with equal facility, accommodation and dispatch as shall be furnished to them by the company in Indiana, so as not to give at the point of termination in Chicago, the advantage in any respect to the Michigan Central Rail Road, but shall be equal and just to all parties or companies connected therewith; and in case the parties or companies shall be unable to agree on all or any of the details or arrangements, then the companies shall respectively agree to abide by the arbitrament and decision of any three engineers or presidents of rail road companies, one of whom to be chosen by the Michigan Central rail road company, one to be chosen by the company in Indiana having power to construct said road, and the third to be chosen by the two thus selected; and the three thus chosen shall examine, fix and settle the terms and mode in which the business of said roads shall be conducted, and shall determine all questions between them, so as to carry out the principles aforesaid; and in case the Michigan Central rail road company shall not signify in writing, in a form or manner, to

the Northern Indiana railroad company within thirty days from the passage of this act, their consent to such an arrangement, and the tribunal thus to be selected to determine all questions of difference, then this proviso shall be of no force and effect.

"Provided, That nothing in this act or any act to which this is amendatory, shall have any force or effect until the Michigan Central Rail Road Company shall have secured a right of way for the extension of their road from Michigan City to the State line of Illinois, on equal and fair terms as have been or may hereafter be possessed or controlled by any company or companies from Michigan City to the said State line of Illinois, on the most direct route to Chicago."

The Speaker announced the following communication from the Attorney General:

OFFICE OF THE ATTORNEY GENERAL, }
Lansing, March 25, 1851. }

To the Hon. the House of Representatives:

As requested by resolution of the House, I have examined the bill providing for the imposition of a special tax of five mills on a dollar, on a portion of the southern tier of townships of Hillsdale county, for the improvement of the Vista Road, and am of the opinion that the proposed law would be invalid. The 11th section of the 14th article of the constitution requires that the Legislature shall provide an uniform rule of taxation. The bill is clearly in violation of this principle. It imposes a local tax, without regard to any territorial

limit or jurisdiction, recognized by law for purposes of taxation. The rule which it establishes is neither uniform in the road districts or townships of the same county, nor general throughout the State.

WILLIAM HALE,

Attorney General.

The committee on agriculture, to whom was referred a petition signed by 131 respectable citizens of Wayne county, for the passage of a law to prohibit the killing of deer, woodcocks, partridges and quails, by persons living in Canada, who avail themselves of crossing the river dividing Canada from the United States, in the season of the year when they are forbidden by their own laws to shoot game in Canada; and in the absence of a statute law in this State on this subject, they cross the line dividing the two governments, and kill

and destroy the above named game; all of which the committee have had under careful consideration, and would respectfully submit the following report:

That this is an open violation of natural and civil rights; that the people of one government should molest the rights of those of another, by coming into their territory and destroying property of the class described in the prayer of the petition, demoralizing in its tendency, and criminal in practice, for which the citizens of Detroit and vicinity very justly complain; and your committee are conscious that such violation should not be tolerated under a government claiming for itself the dispensation of just laws—which should be respected, observed and cherished by all, accompanied by a bill.

Mr. Hubbell offered the following:

Resolved, That the use of the Hall of the House of Representatives be given to Capital Lodge No. 45, I. O. of O. F., on Tuesday evening, April 1st, for the purpose of a public lecture.

Adopted.

Mr. D. L. Case gave notice that he would on some future day ask leave to introduce

A bill to re-locate the Michigan Asylums.

On motion of Mr. Thurber,

A bill to amend an act entitled an act to authorize the sale of the Michigan Southern railroad and to incorporate the Michigan Southern railroad company, approved May 9, 1846, and amendments,

Were taken from the table.

And the question being on concurring in the amendments made thereto in committee of the whole, the first amendment, as follows:

Amend line 3, section 1, by striking out after the word "from," the words "the southern line of this State, and insert the words "the line between this State and the state of Indiana,"

Was concurred in.

The second amendment, as follows:

Amend section 1, line 5, by striking out after the word "railroad," where it first occurs in said line, the words "to connect the Southern railroad with Chicago," was also concurred in.

The question then being on the amendment offered by Mr. Britain on the 24th inst.,

Mr. Britain offered the following as a substitute therefor:

Strike out the "proviso" to section 1 and insert as follows:

"Provided, That before the provisions in this sec. shall take effect and be applicable to any company or companies in the State of Indiana, or have any effect whatever in that State, the company or companies in that State having power to control a railroad from Michigan City to the State line of Illinois, shall contract to transport the freight and passengers of the Michigan Central Railroad Company over and upon the road of said company, and any part of it, between Michigan City and Chicago, either in the cars of the said Michigan Central Railroad Company, or otherwise, or to permit the trains of the Michigan Central Railroad Company to pass over and upon the said road in Indiana, or any part of it, upon just and equitable terms, so as to insure every practicable dispatch, facility and accommodation, with a view of insuring to the said Michigan Central Railroad Company a free and equal competition at and with Chicago for trade and travel, on the condition that the company or companies in Illinois connected with the Michigan Central Railroad Company, shall first contract or agree to contract that they will immediately proceed to construct a railroad from the Illinois State line to the city of Chicago, so as to cause no delay in the progress of the line to that city, and will in like manner as above provided, transport the freight and passengers passing on the said road in Indiana over and upon said road in Illinois or any part of it, or permit the trains passing over the said road in Indiana to pass over and upon the said road in Illinois, or any part of it, with equal facility, accommodation and dispatch as shall be furnished to them by the company in Indiana, so as not to give at the point of termination in Chicago, the advantage in any respect to the Michigan Central Railroad, but shall be equal and just to all parties or companies connected therewith; and in case the parties or companies shall be unable to agree on all or any of the details or arrangements, then the companies shall respectively agree to abide by the arbitrament and decision of any three engineers or presidents of railroad companies, one of whom to be chosen by the Michigan Central Railroad Company, one to be chosen by the company in Indiana having power to construct said road, and the third to be chosen by the two thus selected; and the three thus chosen

shall examine, fix and settle the terms and mode in which the business of said roads shall be conducted, and shall determine all questions between them, so as to carry out the principles aforesaid; and in case the Michigan Central Railroad Company shall not signify in writing, in a form or manner, to the Northern Indiana Railroad Company, within thirty days from the passage of this act, their consent to such an arrangement, and the tribunal to be thus selected, to determine all questions of difference, then this proviso shall be of no force and effect."

The substitute was adopted.

The question then being on concurring in the amendment as amended,

Pending which,

Mr. Britain offered the following amendment to the substitute:

Strike out "or," between "otherwise" and "to," and insert "and;" and also by striking out "or," between "it" and "permit," and inserting "and."

Which, after a lengthy debate, he withdrew.

The question then recurring on the amendment as amended, after a lengthy discussion by Messrs. Britain, Church, Hart, Thurber, H. M. Moore and D. L. Case,

Pending which,

On motion of Mr. Thurber,

The House took a recess until half-past 2 o'clock, without the question being taken.

Afternoon Session.

$\frac{1}{2}$ past 2 o'clock.

The House was called to order by the Hon. Mr. P. D. Warner.

The roll was called and the members present as in the morning.

The House then resumed the consideration of

A bill to amend an act entitled an act to authorize the sale of the Southern railroad and to incorporate the Michigan Southern Railroad Company, approved May 9, 1846.

The question being on concurring in the amendment offered by Mr. Britain, as amended,

After considerable debate by Messrs. Clough, Britain and Ferry, Mr. Britain offered following amendments:

Line 2. After "State," insert "of Michigan, or."

Line 3. Strike out "in that State," and insert "in either of said States."

Line 4. Strike out "in that State," and insert "in the State of Indiana."

Adopted.

Also the following:

After "aforesaid, sixth line from bottom of page, insert "and such determination shall be binding upon the respective companies for whom it shall be made; and in case either of said companies shall neglect or refuse to accept and carry out said determination, said company and all companies connected therewith, shall thereby forfeit all right to the provisions of this act."

Adopted.

The question was then taken on the amendment as amended, which would read as follows:

Strike out "proviso," to section 1, and insert as follows:

"Provided, That before the provisions in this section shall take effect, and be applicable to any company or companies in the State of Michigan or of Indiana, or have any effect whatever in either of said States, the company or companies in the State of Indiana, having power to control a rail road from Michigan City to the State line of Illinois, shall contract to transport the freight and passengers of the Michigan Central Rail Road Company, over and upon the road of said company, and any part of it, between Michigan City and Chicago, either in the cars of the said Michigan Central Rail Road Company, or otherwise, or to permit the trains of the Michigan Central Rail Road Company, to pass over and upon said road in Indiana; or any part of it, upon just and equitable terms, so as to insure every practicable dispatch, facility and accommodation, with a view of insuring to the said Michigan Central Rail Road Company a free and equal competition at and with Chicago, for trade and travel, on the condition that the company or companies in Illinois, connected with the Michigan Central Rail Road Company, shall first contract or agree to contract that they will immediately proceed to construct a rail road from

the Illinois State line to the city of Chicago, so as to cause no delay in the progress of the line to that city, and will in like manner as above provided, transport the freight and passengers passing on the said road in Indiana, over and upon said road in Illinois, or any part of it, and permit the trains passing over the said road in Indiana, to pass over and upon the said road in Illinois, or any part of it, with equal facility, accommodation and dispatch as shall be furnished to them by the company in Indiana, so as not to give at the point of termination in Chicago, the advantage in any respect to the Michigan Central rail road, but shall be equal and just to all parties or companies connected therewith; and in case the parties or companies shall be unable to agree on all or any of the details or arrangements, then the companies shall respectively agree to abide by the arbitrament and decision of any three engineers or presidents of rail road companies, one of whom to be chosen by the Michigan Central rail road company, one to be chosen by the company in Indiana having power to construct said road, and the third to be chosen by the two thus selected; and the three thus chosen shall examine, fix and settle the terms and mode in which the business of said road shall be conducted, and shall determine all questions between them, so as to carry out the principles aforesaid; and said determination shall be binding upon the respective companies for whom it shall be made; and in case either of said companies shall neglect or refuse to accept and carry out said determination, said company and all companies connected therewith, shall thereby forfeit all right to the provisions of this act; and in case the Michigan Central rail road company shall not signify in writing, in a form or manner, to the Northern Indiana rail road company, within thirty days from the passage of this act, their consent to such an arrangement, and the tribunal thus to be selected to determine all questions of difference, then this proviso shall be of no force and effect.

And the same was non-concurred in by the following vote:

By unanimous consent,

The Speaker announced the following communication from the Secretary of State:

OFFICE OF THE SECRETARY OF STATE, }
Lansing, March 29, 1851. }

TO THE HON. JEFFERSON G. THURBER,

Speaker of the House of Representatives:

SIR—I have the honor to acknowledge the receipt of the following resolution, adopted by the House on the 27th inst.:

"Resolved, That the Secretary of State communicate to the House the number of negroes or colored persons in each county in this State, at his earliest convenience."

In answer to the same, I herewith submit a list of the number of colored persons in this State by towns and counties, as taken from the United States census returns deposited in this office.

Very respectfully yours,

C. H. TAYLOR,

Secretary of State.

On motion of Mr. P. D. Warner,

The accompanying documents were ordered laid on the table and printed.

Also the following from the Attorney General:

ATTORNEY GENERAL'S OFFICE, }
March 28, 1851. }

To the Honorable the House of Representatives:

I have the honor to acknowledge the receipt of the resolution adopted by the House on the 25th instant, requesting my opinion whether it is competent for the Legislature to vacate village plats, wholly or in part.

The twenty-third section of article four of the revised constitution provides that the Legislature shall not authorize, by private or special law, the sale or conveyance of any real estate belonging to any

person; nor vacate nor alter any road laid out by commissioners of highways, or any street in any city or village or in any recorded town plat. The subject of inquiry is undoubtedly embraced within the meaning of this constitutional prohibition. The vacating of village plats is nothing more or less than vacating streets, which the Legislature has no power to authorize except by the passage of a general law. Special legislation is expressly prohibited.

WILLIAM HALE,
Attorney General.

Ordered laid on the table and printed.

And the following message from the Senate:

SENATE CHAMBER, }
Lansing, March 29, 1851. }

To the Speaker of the House of Representatives:

SIR—I am instructed by the Senate to return to the House of Representatives,

A bill relative to land sales in Ottawa county; and

Mr. Fowler,

1

The House then directed by a vote of two-thirds of all the members elected, that the said act shall take effect immediately.

Mr. Britain, from the committee of ways and means, submitted the following report:

The committee of ways and means, to whom was referred "a bill to provide for a sinking fund," have instructed me to report the same back to the House, with the following amendments, and ask to be discharged from the further consideration thereof:

Section 2, line 6, after "five per cent.," insert "and compound interest at the rate of six per cent. per annum."

Section 3, line 1, strike out "Governor;" also the word "and;" and after "Secretary of State" insert "State Treasurer."

Section 3, line 6, after "so doing," insert "to apply the same in payment of any State indebtedness then due, or if there be no debt of the State due at the time, then."

Your committee recommend the first amendment because they consider it required by the 2d section of the 14th article of the constitution, which provides that "the Legislature shall provide by law a sinking fund of at least twenty thousand dollars a year, to commence in 1852, with compound interest at the rate of six per cent. per annum, and an annual increase of at least five per cent."

They have recommended the second amendment, because they think the duties of fund commissioners incompatible with the duties of the chief executive officer of the State, whose duty it is to "take care that the laws be faithfully executed."

The third amendment merely disposes of the fund in accordance with the provision of the section of the constitution above recited.

C. BRITAIN, Ch'n.

The report was accepted, the committee discharged, and the bill ordered laid on the table, and

On motion of Mr. Church,

The report ordered printed on the journal.

Mr. Britain, from the committee of ways and means, also reported a bill supplemental to a bill to provide for assessing property at its true value, and for levying taxes thereon,

Recommended its passage and asked to be discharged therefrom.

The report was accepted the committee discharged, and the bill read twice and referred to committee of the whole.

Mr. Church, from the committee on the judiciary, to which was referred

A bill providing for the compensation of judges of probate,

A bill to exempt from forced sale on execution or any other final process from a court, the homestead of any resident of this State, recommended ther; passage, and asked to be discharged from the further consideration thereof.

The report was accepted, the committee discharged, and the bills severally ordered laid on the table.

Mr. Church also from the judiciary committee, to whom was referred,

A bill to amend section 1, of chapter 93, of title 21, of the revised statutes of 1846, relative to justices of the peace;

A bill requiring justices of the peace to renew their official bond in certain cases; and

A bill to legalize the acts of masters in chancery in certain cases, Reported the same back without amendment, recommended their passage and asked to be discharged from their further consideration.

The report was accepted and the committee discharged.

The first named was read twice and referred to the committee of whole.

The second was referred to committee of the whole.

The third was read twice, and referred to the committee of the whole.

Mr. Church also submitted the following report:

The committee on the judiciary to whom was referred the following resolution:

Resolved, That the judiciary committee be and they are hereby instructed to so amend chapter 36 of the revised statutes as to prohibit any person from commencing the practice of medicine or surgery in this State after the 4th day of July next, unless such person has been licensed to do so by some person or institution legally authorized to grant such license. And that said chapter or a part thereof so amended, be reported for the consideration of the House at this session,"

Have had the same under consideration and have instructed me to report:

That the committee have for certain reasons, to them satisfactory, recommended previously the repeal of the whole of said chapter 36

of the revised statutes, and do not therefore wish to render themselves obnoxious to the charge of inconsistency in attempting to amend what they have pronounced to be radically and incurably defective and unjust; and that inasmuch as the revised constitution of this State has provided in article 24 of section 6 thereof that any party to a suit may act as his own lawyer in the prosecution or defence of said suit, or may appoint any other person in his stead so to do, manifestly designing that all, ignorant or learned, should practice law; why, if the principle incorporated in said section be a sound one, (and it has been sanctioned by the wisdom of the council of one hundred, who, under the rays of a July sun, framed the aforesaid constitution,) should it not be applied to the practice of physic as well as to that of law. Why should not ignorance and presumption be permitted to treat diseased persons as well as disordered estates? Why should the "natural bone-setter" be prohibited from re-adjusting the deranged osseous structure of man and the untaught pettifogger be allowed to expound the doctrines and apply the rules of the law?

True, the friendly grave covers and conceals the blunders of the incompetent physician, while the open records of the court proclaim and publish the failures of the unskilful practitioner at the bar.

But a regard for the profession of which they are members, renders this committee unwilling to provide by law for the careful exclusion from the practice of surgery and physic of those whose only excellence would probably consist in a *Sanguado* theory of cure, and yet allow to enter the temples of justice all who propose themselves as ministers of her rites.

They can acknowledge no such pre-eminent *rank* of the science of medicine (a science, more than all others, based upon shrewd guesses and contradictory experiments,) as should entitle it to a monopoly of protective legislation. They decline, therefore, complying with the instructions of the House; and as the said committee comprise every lawyer in the House but one, they throw themselves upon the clemency of the overwhelming majority of farmers, millers, merchants, shingle-weavers and miscellaneous gentlemen by whom it is surrounded, and asked to be excused for disobedience, and to be discharged from the further consideration of the subject.

THOS. B. CHURCH, Ch'n.

Ordered laid on the table and printed in the journal,

By unanimous consent,

Mr. Covert introduced a bill to incorporate the city of Pontiac.

Read a first and second time and,

On motion of Mr. P. D. Warner,

Ordered laid on the table.

Mr. Britain, from the committee on ways and means, to whom was referred

The joint resolution relative to the interest account between the State of Michigan and certain counties thereof,

Reported the same back without amendment, recommended its passage, and asked to be discharged from its further consideration.

The report was accepted, the committee discharged, and the joint resolution,

On motion of Mr. Church,

Ordered laid on the table.

MESSAGES.

The Speaker announced the following communication from the Clerk of the House of Representatives:

HOUSE OF REPRESENTATIVES, }
Lansing, April 2, 1851. }

To the House of Representatives:

I have been instructed by the Speaker of the House of Representatives, under the authority of a resolution adopted by the House on yesterday, to state the facts in regard to the action of the House upon the bill directing the publication of a statement of lands to be sold in Cass county, in 1851.

The bill was passed by the House on the 27th ult., by a vote of 41 to 20; after which, the question was taken according to the practice of the House during this session, on bills required to take immediate effect, "will the House direct that this act shall take effect immediately?" which was decided in the negative, two-thirds of all the members elected not voting therefor. The bill was transmitted to the Senate on the same day, and returned on the 29th ult., and the House informed that the Senate had directed by the constitutional vote, that said act should take effect immediately.

The question was then distinctly stated by the Chair, in substance, "will the House concur in the Senate amendment to the bill, which amendment is to add a new section thereto, directing that it shall take effect immediately," and was decided affirmatively, by an almost unanimous vote; and the bill as amended was ordered enrolled. The enrolling committee filed a report with the clerk the same day, of its correct enrollment; which report was entered on the journal of the 29th.

It has been the usual practice of this committee to report through their chairman to the House, although it was seldom done at the last session of the Legislature, and the practice has been departed from on several occasions during this session, and their report filed with the clerk and entered on the record, without any other announcement being made to the House.

It is proper to add that an error appears in the printed copy of the journal of that day, as laid on the tables of members, as no action appears therein to have been taken by the House on the question; but the error was discovered immediately by the clerk, the correction made, and the precise action of the House will appear in the published journal of its proceedings.

Respectfully,

D. P. BUSHNELL,

Clerk of House of Rep's.

On motion of Mr. Hart,

Ordered laid on the table and printed on the journal.

Also the following message from the Senate:

Mr. Hyde, from the committee on State affairs, to whom was referred

A bill to divide the State into Congressional districts,

Reported the same back without amendment, recommended its passage and asked to be discharged from its further consideration.

The report was accepted, the committee discharged, and the bill referred to the committee of the whole and placed on the general order.

Mr. Hart, from the committee on Federal Relations, submitted the following report:

The committee on Federal Relations, to whom was referred sundry petitions in reference to the law known as the fugitive slave law, have had the same under consideration, and have instructed me to report:

That but a few months have elapsed since there existed a state of things in our Federal Union, before unknown in its history. Certain measures had been pending before the Congress of the United States, among which, this fugitive slave question was one for seven months, and yet brought to no result. The subject pending had paralyzed all the operations of government; displaced the regular proceedings of the two Houses of Congress; and at the end of seven months of a session, the ordinary annual appropriation bills had not been passed. Such an occurrence had never before existed in this government.

The measures alluded to were embraced in what was denominated the Compromise or Omnibus bill, and particularized as follows: "The California question, the question of territories, the question of the boundary of Texas, the Slave trade in the District of Columbia, and the Fugitive Slave bill." The agitation of these subjects increased from day to day, until the wisest patriots became alarmed for the safety of our beloved country. The cry of dissolution was heard from one end of the Union to the other. The American people watched this agitation with a deep anxiety, and not being able to foresee its consequences, finally, in an almost united voice, commanded their servants to compromise, that concord and harmony might again be restored, and the Union be preserved for all the high and noble purposes for which our fathers formed it. The compromise was finally effected; the five wounds that had so long baffled the skill of

the wisest and most eminent physicians of the nation, were finally healed. There was a general rejoicing throughout the length and breadth of the land; all seemed to speak out, "the Union is now safe." Our long cherished principle, that man is capable of self-government, was re-affirmed.

Your petitioners pray a repeal of the fugitive slave law—one of the compromise measures. Your committee are of opinion that your petitioners have honestly yielded to the gross misrepresentations of this law; but upon taking "the sober second thought," will agree with your committee that the law is constitutional—that the law does not abolish the right of trial by jury—that it does not suspend the writ of habeus corpus—that, in short, it does not take away any right secured to the slave under the law of 1793; but on the contrary is really in his favor, inasmuch as, by the law of 1793, the claimant was authorized to arrest and seize his fugitive slave by force and without process, while the law of 1850, authorizes legal proceedings in the first instance—that the law of 1850 only gives the owner of the fugitive slave an appointed and peaceable remedy.

Your committee cannot be induced to believe but that your petitioners estimate the Union of the States of inestimable value to the people of America, and to the cause of liberty throughout the world. That upon a little reflection they will say with your committee, that the advice of the immortal Washington in his farewell address to the people of the United States, to avoid sectional divisions and animosities, and to frown indignantly upon every attempt to alienate one section of the country from another, is deserving of profound respect and veneration from all patriotic citizens, and that no existing circumstances will warrant our disregard of that advice.

Entertaining these views, your committee have instructed me to report adverse to the prayer of your petitioners, and that any legislation on the subject is unnecessary and inexpedient.

NOAH H. HART, Ch'n.

Mr. Pierce submitted the following protest and asked that it be entered on the journal of the proceedings of the House:

To the Hon. the House of Representatives:

The undersigned, a member of this House, would respectfully ask, as a constitutional right, that the within protest be received by this House, and entered on the journal thereof.

PROTEST.

The undersigned, one of the members of the House of Representatives, hereby enters his solemn protest against the acts and proceedings of the House upon the subject herein set forth:—

On the 27th day of March, 1851, a bill was introduced into the House of Representatives, entitled "a bill directing the publication of a statement of lands to be sold for taxes in Cass county in 1851."

The first section provided for publishing the statement of lands to be sold in Cass county in the year 1851, in a certain newspaper

printed in that county, and the second section was in the following words:

"Sec. 2. This act shall take effect immediately."

On the same day the bill was introduced, the House passed the first section of this bill, as appears on the journal of the House of Representatives; and by a direct vote refused to pass the second section of said bill, which also appears on said journal. And the House took no further action on said bill.

On the same day, March the 27th, 1851, there appears on the journal of the Senate of that day the following statement or report:

"To the President of the Senate:

"Sir—I am instructed by the House of Representatives to transmit to the Senate,

"A bill directing the publication of a statement of lands to be sold for taxes in Cass county in 1851,

"Which the House have passed by a majority of all the members elected thereto, and respectfully ask the concurrence of the Senate therein.

"Respectfully,

D. P. BUSHNELL,

Clerk of House of Representatives."

Now I do most solemnly protest against the action of the House in allowing or permitting a bill to be taken from the possession of this House and reported to the Senate as having passed this House. and ask the concurrence of the Senate, when it is known to every member of this House that the House refused to pass the bill, and it is so stated on the journal of the House.

On the 29th day of the same month, March, the following report was made to the House of Representatives, as appears on the journal of that day:

"SENATE CHAMBER, }
Lansing, March 29, 1851. }

"To the Speaker of the House of Representatives:

"Sir—I am instructed by the Senate to return to the House of Representatives,

"A bill directing the publication of a statement of lands to be sold in Cass county in 1851,

"And to respectfully inform the House that the Senate have concurred therein, and by a two-thirds vote directed that said act take effect immediately.

"Very Respectfully,

O. W. MOORE,

Secretary of the Senate."

The journal says the bill was then ordered to be enrolled.

It was urged by the Speaker that the Senate had made an amendment to the bill; but the report says nothing about any amendment; and if there had been an amendment made by the Senate, the report should have so stated; and I have examined the bill and find it entire as when in the House, and without amendment; and if a motion was made that the House concur in an amendment, or a motion was so put, it was a fraud upon the House, and made for deception, as no amendment existed, and none had been made; and I do most solemnly protest against such an abuse.

On the journal of the House of Representatives of March the 29th, 1851, the following report appears:

"Mr. Hubbell, from the committee on enrolled bills, reported as correctly enrolled, signed, and this day presented to the Governor for his approval,

"An act directing the publication of a statement of lands to be sold for taxes in Cass county in 1851."

Also on the journal of the House of Representatives of Monday, March the 31st, appears the following communication:

"EXECUTIVE OFFICE,
Lansing, March 31, 1851. }

"To the House of Representatives:

"I have this day approved, signed and deposited in the office of the Secretary of State,

"An act directing the publication of a statement of lands to be sold for taxes in Cass county in 1851.

JNO. S. BARRY."

I do most solemnly protest against this act becoming a law or having any force or effect under ninety days after the close of this session, as this House by a direct vote on the 27th day of March, refused to pass the second section of this act, as appears by the jour-

nal of the House for that day; and as said vote has never been reconsidered it is in full force and binding upon the House.

And on the first day of April, 1853, the subscriber proposed to the House the following resolution, which was sent up to the Speaker and by the Clerk read to the House, as follows, to wit:

Resolved by the House of Representatives, That the Speaker of this House be requested to inform this House how and by what process the bill entitled a bill directing the publication of a statement of lands to be sold in the county of Cass in 1851, was taken from the possession of the committee on enrolment, signed by the Speaker as having passed this House and been correctly enrolled and presented to the Governor for his signature, when this House by a direct vote had refused to pass a portion of said bill to wit: that portion or section which says this act shall take effect immediately."

After several motions had been made in the House, Mr. Irvine made the following motion:

"Strike out the latter clause of the resolution all after the word 'when,' in said resolution," and the motion prevailed in the House.

And the following words were stricken from the resolution, to wit: "this House, by a direct vote, had refused to pass a portion of said bill, to wit: that portion or section which says 'this act shall take effect immediately.'"

Now I do most solemnly protest against the action of the House in amending the resolution which was presented to the House by me, in striking out the latter clause of said resolution, for the following reason: "that the House of Representatives did on the 27th day of March, 1851, by a constitutional vote, refuse to pass said bill, as appears on the journal of this House for that day; and as that vote has not been reconsidered by the House it is still in force and binding on this House. And as the last clause of the resolution was in principle and fact the same as the journal of the House, it should not have been stricken out, for if the journal of the House is truth then the latter part of the resolution is truth.

And during the day, and while the resolution was under consideration in the House, Mr. S. C. Hall offered the following amendment to the resolution:

"Amend by inserting at the end of the ninth line the following:

and that the Speaker cause the facts to be stated in writing and placed upon the journal."

And the amendment was adopted in the House and the resolution was so amended.

And on the second day of April, 1851, the Speaker announced the following communication from the Clerk of the House of Representatives, to wit:

HOUSE OF REPRESENTATIVES, }
 Lansing, April 2, 1851. }

To the House of Representatives:

I have been instructed by the Speaker of the House of Representatives, under the authority of a resolution adopted by the House on yesterday, to state the facts in regard to the action of the House upon the bill directing the publication of a statement of lands to be sold in Cass county in 1851.

The bill was passed by the House on the 27th ult., by a vote of 41 to 20; after which, the question was taken according to the practice of the House during this session, on bills required to take immediate effect, "will the House direct that this act shall take effect immediately?" which was decided in the negative, two-thirds of all the members elected not voting therefor. The bill was transmitted to the Senate on the same day, and returned on the 29th ult., and the House informed that the Senate had directed by the constitutional vote, that said act should take effect immediately.

The question was then distinctly stated by the Chair, in substance, "will the House concur in the Senate amendment to the bill, which amendment is to add a new section thereto, directing that it shall take effect immediately," and was decided affirmatively, by an almost unanimous vote; and the bill as amended was ordered enrolled. The enrolling committee filed a report with the clerk the same day, of its correct enrollment; which report was entered on the journal of the 29th.

It has been the usual practice of this committee to report through their chairman to the House, although it was seldom done at the last session of the Legislature, and the practice has been departed from on several occasions during this session, and their report filed with the clerk and entered on the record, without any other announcement being made to the House.

It is proper to add that an error appears in the printed copy of the journal of that day, as laid on the tables of members, as no action appears therein to have been taken by the House on the question; but the error was discovered immediately by the clerk, the correction made, and the precise action of the House will appear in the published journal of its proceedings.

Respectfully,

D. P. BUSHNELL,

Clerk of House of Rep's.

On motion of Mr. Hart,

Ordered laid on the table and printed on the journal.

Now I do most solemnly protest against the action of this House in ordering the communication made by the Clerk of this House under the direction of the Speaker, to be laid on the table and printed on the journal. Said communication states that the Clerk was instructed by a resolution to state the facts in regard to the action of the House upon the bill directing the publication of a statement of lands to be sold in Cass county in 1851. The Clerk in his statement to the House says "the bill was passed by the House on the 27th ult., by a vote of 41 to 20, after which the question was taken according to the practice of the House during this session on bills required to take immediate effect, 'will the House direct that this act shall take effect immediately?' which was decided in the negative, two-thirds of all the members elected not voting therefor. The bill was transmitted to the Senate on the same day."

Now I ask if the House had passed that bill. The Clerk says "the bill was passed by the House on the 27th ult., by a vote of 41 to 20. But the second section of that bill was in these words: "Sec. 2. This act shall take effect immediately;" and the Clerk tells you that the House refused to pass that section. Now I ask by what authority the Speaker declared that bill had passed the House when the journals states that the House refused to pass the bill? I ask again by what authority or under what rule of this House that bill was transmitted to the Senate and the Clerk reported to the Senate that the House had passed that bill and asked the concurrence of the Senate, and that he was so instructed by the House of Representatives? I ask again did not the Speaker of the House and Clerk

know that the House had refused to pass that bill? I think every member of this House must answer yes. If this conclusion is correct, then the report to the Senate was a false report; and I do most solemnly protest against such a course of proceedings.

The Clerk in his statement, spread on the journal of this House, says the bill was returned to the House on the 29th ult., and the House informed that the Senate had directed by the constitutional vote, that said act should take effect immediately. The Clerk says the question was then distinctly stated by the Chair in substance, "will the House concur in the Senate amendment to the bill, which amendment is to add a new section thereto, directing that this act shall take effect immediately."

Now let us inquire, and see what was the report of the Secretary of the Senate to the House of Representatives. The report of the Secretary of the Senate is as follows:

SENATE CHAMBER, }
Lansing, March 29, 1851. }

To the Speaker of the House of Representatives:

SIR—I am instructed by the Senate to return to the House of Representatives, "A bill directing the publication of a statement of lands to be sold in Cass county in 1851;" and to respectfully inform the House that the Senate have concurred therein, and by a two-thirds vote ordered that it take effect immediately.

Respectfully,

O. W. MOORE,
Sec'y Senate.

Now, I ask, does the report say anything about amendments? Does not the report simply say, that the Senate have concurred in the passage of the bill? I cannot find on the Senate journal that any amendments were offered to the bill. And why should the Speaker put a motion in that form, when no such motion was offered or presented for the consideration of the House—when no amendment existed, and the journal of the House of Representatives on that subject, simply says the bill was ordered enrolled?

I do most solemnly protest against such a course of actions. In the closing paragraph of the Clerk's communication to the House, is the following statement:

"It is proper to add that an error appears in the printed copy of the journal of that day, as laid on the tables of members, as no action appears therein to have been taken by the House on the question; but the error was discovered immediately by the Clerk, the correction made, and the precise action of the House will appear on the published journal of its proceedings."

Now, I ask is that the fact in the case. The journal of the House says, "the bill was ordered to be enrolled." I ask if that is not action? and I ask further, what right or justice there is in the Clerk altering the journal after the House have corrected it, and passed upon it? And I do most solemnly protest against the vassalating course of action.

In the 20th section of the 5th article of the constitution of this State, entitled "Legislative Department," is the following provision: "No public act shall take effect or be in force until the expiration of ninety days from the end of the session at which the same is passed, unless the Legislature shall otherwise direct by a two-thirds vote of all the members elected to each House." That the act under consideration has been passed in direct opposition of that portion of the constitution herein recited, and in violation of the rules adopted to govern the House of Representatives in their deliberations, I verily believe; and therefore I do most emphatically and solemnly protest against the acts of the House of Representatives in passing this bill.

Given under my hand at Lansing, this 4th day of April, in the year of our Lord, 1851.

NATHAN PIERCE.

The protest having been read through by the Clerk,

Mr. Hart moved that the Speaker cause a statement of the facts connected with the subject matter of the protest to be made, and appended thereto, and entered on the journal therewith.

Mr. Irvine moved that the protest be laid on the table.

JEFF. G. THURBER, *Speaker H. Reps.*
WM. M. FENTON, *President Senate.*

STATEMENT of the Clerk of the House of Representatives relative to the Protest of the Hon. Mr. Pierce.

Pursuant to instructions from the presiding officer of the House of Representatives, given to the undersigned in obedience to an order of the House, made on the motion of the Hon. Mr. Hart, on the 5th inst., a representative from the county of Lapeer, the undersigned has prepared the following statement of facts explanatory of the matter referred to in the protest of the Hon. Mr. Pierce, a representative from the county of Calhoun, and appended the same to the Journal of the proceedings of the House of Representatives, as required by said order. The main facts appear in the following communication on page 527, House Journal:

HOUSE OF REPRESENTATIVES, }
Lansing, April 2, 1861. }

To the House of Representatives:

I have been instructed by the Speaker of the House of Representatives, under the authority of a resolution adopted by the House on yesterday, to state the facts in regard to the action of the House upon the bill directing the publication of a statement of lands to be sold in Cass county in 1861.

The bill was passed by the House on the 27th ult., by a vote of 41 to 20; after which, the question was taken according to the practice of the House during this session, on bills required to take immediate effect, "will the House direct that this act shall take effect immediately?" which was decided in the negative, two-thirds of all the members elected not voting therefor. The bill was transmitted to the Senate on the same day, and returned on the 29th ult., and the House informed that the Senate had directed by the constitutional vote, that said act should take effect immediately.

The question was then distinctly stated by the Chair, in substance, "will the House concur in the Senate amendment to the bill, which amendment is to add a new section thereto, directing that it shall take effect immediately," and was decided affirmatively, by an almost unanimous vote; and the bill as amended was ordered enrolled. The enrolling committee filed a report with the clerk the same day, of its correct enrollment; which report was entered on the journal of the 29th.

It has been the usual practice of this committee to report through their chairman to the House, although it was seldom done at the last session of the Legislature, and the practice has been departed from on several occasions during this session, and their report filed with the clerk and entered on the record, without any other announcement being made to the House.

It is proper to add that an error appears in the printed copy of the journal of that day, as laid on the tables of members, as no action appears therein to have been taken by the House on the question; but the error was discovered immediately by the clerk, the correction made, and the precise action of the House will appear in the published journal of its proceedings.

Respectfully,

D. P. RUSHNELL,

Clerk of House of Rep's.

The provision of the revised constitution in regard to the time when public acts take effect, is found in Article 4, entitled Legislative Department, last clause of section 20, and is as follows:

"No public act shall take effect or be in force until the expiration of ninety days from the end of the session at which the same is passed, unless the Legislature shall otherwise direct by a two-thirds vote of the members elected to each House."

This being a new provision, the two Houses at the present session, adopted the following joint rule, viz:

"Rule 12. Whenever both Houses, by the constitutional vote, direct that any act or resolution shall take effect immediately, or at any time less than ninety days, a proviso shall be added thereto at the enrollment of the same, in words to this effect: 'this act (or resolution) shall take effect immediately, (or in ——— days.'"

The practice of the House has been uniform under the provisions of the constitution and the foregoing rule, to take the question separately on ordering a bill to take effect at any other time than that specified in the constitution.

It appears by House Journal, March 29, page 438, the House passed the bill in question by a constitutional vote, 41 to 20; after which the question was taken separately on its taking immediate

effect, and negative, two-thirds, of all the members elected not voting therefor. Consequently, if the bill, when transmitted to the Senate, contained any such provision, it would have been negatory, merely, and if the Senate and House had not subsequently agreed thereto, it would have been stricken out at the enrollment thereof, under the joint rule above cited.

The fact that the bill was passed by the House, in the first instance by a majority vote and not ordered to take effect immediately, not only appeared in the message transmitting it to the Senate, but the bill itself was certified on the back thereof by the Speaker of the House of Representatives as passed by a majority vote. No one, then, could have been deceived thereby, and if no further action had been had on that provision, the records of the two Houses would have shown that the act was not ordered to take effect immediately; and even if it had been enrolled with such a section thereto, (as would not have been done,) it would have been inoperative, merely for the plain reason that it had not been passed by a two-thirds vote of all the members elected to each House.

The joint rule before quoted construes the constitutional provision relative to the time when an act shall go into effect, as authorizing the question to be taken separately from the passage of the bill; and, as before stated, such has been the uniform practice of the House; and it has frequently occurred in both Houses, that a majority have passed and two-thirds ordered that the bill or resolution should take effect immediately, or at some other time than that specified in the constitution.

The proceedings in the Senate on the bill mentioned in the protest show that that body was advised of the facts in relation thereto. They ordered it to take effect immediately, and so advised the House in their message transmitting the same, and the House concurred therein. (See House Journal of 29th March, page 474.) So that that provision in the constitution was complied with in the most direct manner, and the enrollment of the bill authorized by the joint rule No. 12.

The Senate order that the bill should take immediate effect, was equivalent to an amendment to the bill as passed by the House, and the statement thereof being distinctly made by the Speaker, the

question was decided on a division, by nearly an unanimous vote, *the protestant himself rising in his place and voting on the affirmative side thereof.*

The decision of the House was distinctly announced from the chair, the bill ordered enrolled, and no one dissented; the bill duly reported under the House rule No. 38, as correctly enrolled, signed and presented to the Governor, and he advised the House of his approval thereof on the 31st inst.

A brief summary of the facts, then, as they occurred and appear by the record, show that the bill went through the usual stages in the House, and was finally passed by 41 votes, a constitutional majority; but that after its final passage two-thirds of all the members elected did not vote to have it take effect immediately; that under the authority of joint rule 3, it was regularly transmitted to the Senate and that body duly advised of the action of the House thereon, that it passed through the usual stages in the Senate, was returned to the House; the House duly advised of its passage by the Senate, and that that body had, by a vote of two-thirds of all the Senators elect, ordered that it take immediate effect, which order of the Senate was duly stated to the House, the question taken thereon and the order concurred in by an almost unanimous vote: it was regularly reported by the enrolling committee as required by House rule 38, as correctly enrolled, signed and presented to the Governor, who approved it on the 31st inst., and it became a law.

The action of both Houses seems therefore to have been entirely regular and legal, throughout, and the assumptions in the protest without foundation in fact.

D. P. BUSHNELL,

Clerk House of Representatives.
